Nomination Questions

Why is your exchange a strong fit for Digital Currency Exchange of the Year? Please describe your exchange's role in the Australian digital asset market, the customers you serve, the services you provide and how your exchange meets the needs of Australian customers and the broader digital asset sector. (200 words max)

What has your exchange achieved or delivered over the past 12 months? Please include relevant platform, product or service achievements, such as improvements to onboarding, trading experience, asset access, service quality, partnerships or other major milestones. (300 words max)

What measurable impact has your exchange had, and what evidence supports this nomination? Please provide evidence of your exchange's impact across customer outcomes, adoption, trading activity, market access, service quality, platform reliability, customer education, transparency, complaints handling, scam prevention, security, compliance, risk management, customer protection, partnerships, commercial outcomes or industry contribution. (300 words max)

How has your exchange demonstrated innovation, market leadership, reputation and future potential? Please describe any unique features, services, tools, market initiatives, reputation metrics, industry engagement, education, regulatory contribution, partnerships, future roadmap or broader contribution to Australia's digital economy. (200 words max)
