Nomination Questions

Why is your organisation a strong fit for the Cybersecurity, Risk & Resilience Award? Please describe the cybersecurity, risk, audit, compliance, resilience or trust-related work your organisation delivers, the customers or sectors you support and how your work contributes to a safer and more trusted digital economy. (200 words max)

What has your organisation achieved or delivered during the awards period? Please include relevant achievements such as cybersecurity improvements, risk frameworks, audit outcomes, compliance programs, resilience initiatives, incident response capability, fraud or scam prevention, platform enhancements, client implementations, governance improvements, security training, managed services or other major milestones. (300 words max)

What impact has your organisation had on cybersecurity, risk management, resilience, compliance or trust? Please summarise the outcomes your organisation has delivered. This may include reduced risk, improved security posture, stronger controls, faster detection or response, improved compliance readiness, customer protection, operational resilience, audit findings, reduced fraud or scams, improved governance, client outcomes, industry capability or other measurable results. (300 words max)

How has your organisation demonstrated innovation, leadership and future potential in cybersecurity, risk or resilience? Please describe what makes your approach distinctive, including any use of technology, automation, threat intelligence, data, AI, governance models, assurance frameworks, education, industry collaboration, regulatory engagement, ethical leadership, trust-building initiatives or future plans. (200 words max)
