DIGITAL INFRASTRUCTURE AWARD

Awarded to a business building the technology, platforms and infrastructure that enable Australia's digital economy.

Eligibility requirement

To be eligible, the nominated business must either be based in **Australia** or have a clear **Australian presence, operation, customer base, partnership or market activity**.

Uploads

Business profile: Please provide a short overview of your business.

Supporting material: Upload or link to any supporting material relevant to this nomination.

Logo upload: Upload your organisation logo in the highest quality available.

Nomination Questions

Why is your business a strong fit for the Digital Infrastructure Award? Please describe the technology, platform, protocol, network, system or infrastructure your business provides, who it serves and how it enables Australia's digital economy. (200 words max)

What infrastructure has your business built, delivered or materially advanced during the awards period? Please include relevant delivery milestones such as platform development, network growth, system upgrades, integrations, customer onboarding, enterprise adoption, transaction capability, interoperability, security improvements, scalability, reliability, partnerships or other infrastructure outcomes. (300 words max)

What impact has your infrastructure had on customers, industry or Australia's digital economy? Please summarise the outcomes your infrastructure has enabled. This may include improved access, reliability, efficiency, connectivity, interoperability, market participation, transaction processing, data movement, digital trust, resilience, productivity, customer outcomes, institutional adoption or broader ecosystem development. (300 words max)

How has your business demonstrated innovation, leadership and future potential in digital infrastructure? Please describe what makes your infrastructure distinctive, including any technology architecture, standards, interoperability, governance, security model, scalability, ecosystem partnerships, market leadership, responsible innovation or future roadmap. (200 words max)
